

Homemade Advent Wreath

Before the first Sunday of Advent, assemble this homemade Advent wreath using simple craft supplies. Each Sunday, light the appropriate number of candles and say a prayer together around your wreath. Marking the time until Christmas helps us wait with intention for our Savior, the baby Jesus, to arrive.

Supplies

- 4 clear glass votive holders
- Craft sand (blue)
- 4 tea light candles (regular or battery-operated)
- Green fabric, plastic greenery, or leftover Christmas tree cuttings

Instructions

1. Fill each votive holder half full with blue sand.
2. Nestle one tea light candle into the sand of each votive holder.
3. Decide where you will keep your Advent wreath. Place the votive holders in a square or in a line, depending on your space and your preferences.
4. Drape green fabric or arrange plastic or natural greenery around the votive holders.
5. Light candles, adding one each Sunday between now and Christmas.
